SPECIFICATIONS

General

Type:	Extension Tube	Function:	Extension Tube (Fixed)
-------	----------------	-----------	------------------------

Physical & Mechanical Properties

Extension Length (mm):	20.0	Total Length (mm):	23.45
Outer Diameter (mm):	48.0	Clear Aperture CA (mm):	37.0

Threading & Mounting

Thread Type:	T-Mount
---------------------	---------

Regulatory Compliance

RoHS 2015:	Compliant	Certificate of Conformance:	View
REACH 241:	Compliant		

PRODUCT DETAILS

- Used for Adding a Fixed Tube Extension to Optical Systems
- Feature Male/Female Threads at Opposite Ends
- Black Anodized Aluminum Construction

TECHSPEC® C, S, and T-Mount Extension Tubes add extension length to an optical system while blocking external light and debris from entering the system. Extension tubes are available with C, S, or T-Mount threading, allowing them to be integrated into a wide range of systems and applications. Their black anodized aluminum construction, combined with a threaded inner diameter, ensures that stray light is reduced within the system. TECHSPEC C, S, and T-Mount Extension Tubes feature different lengths that can be combined to create the exact extension length needed for a specific application. The actual tube length is longer than the extension length due to the male threaded portion.

ACCESSORIES

Note: Compatible accessories for individual stock numbers may vary. If unsure about which accessories work with your products, please contact us [here](#).
