## LEARN MORE

- Mate [Fiber Optic Light Guides](#) to [Fiber Optic Illuminators](#)
- 25mm Outer Diameter
- 6061-T6 Aluminum Construction

Dolan-Jenner Fiber Optic Adapters are an accessory for light collimation. All adapters are constructed from 6061-T6 Aluminum. This makes the adapters durable and tough while remaining lightweight. Dolan-Jenner Fiber Optic Adapters have a 25mm outer diameter. Light guide adapters are necessary to mate our [fiber optic light guides](#) to our selection of [fiber optic illuminators](#).
